Simerrazzo™ in Gallium

SIMULATED TERRAZZO FLOOR SYSTEMS

SIMERRAZZO™ BY RESINWERKS

Offering a vibrant and contemporary finish that closely resembles polished terrazzo flooring, this system is ideal for situations where a value-engineered equivalent to a terrazzo finish is required. Simerrazzo™ from Resinwerks may be installed for reduced expense and within shorter timeframes when compared to traditional polished terrazzo flooring.

Simerrazzo™ systems are available in several designer-curated blends with the capability to easily adjust colors and sheen. Blends are infinitely customizable and can incorporate a host of reflective and translucent aggregates to simulate a wide range of decorative terrazzo finishes.

APPLICATIONS

- ◆ Schools & Universities
- ◆ Healthcare
- ◆ Retail
- ◆ Show Rooms
- ◆ Residential
- ◆ Stadiums

ADVANTAGES

- ◆ Contemporary finish with unlimited customization options.
- ◆ Highly reflective and translucent aggregates available for superior depth.
- ◆ High-performance water-clear resins and top-coats suitable for heavy-traffic settings.
- ◆ Match existing terrazzo for a fraction of the cost.

Beautiful, Contemporary Finishes Engineered for High-Traffic Environments

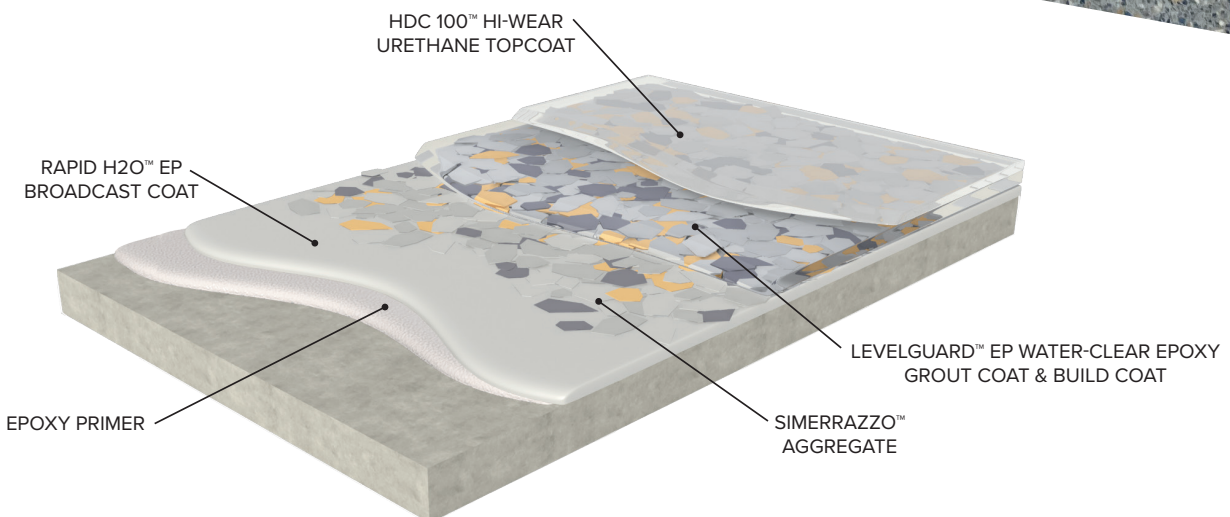

At the core of the Simerrazzo™ Flooring System is Resinwerks' zero-VOC Rapid H2O EP™ broadcast coat. This advanced resin incorporates unique flat-flake technology that draws the decorative media to the surface, facilitating a smooth finish while accentuating the brilliance of metallic and translucent flakes.

Simerrazzo™ systems may be configured in multiple ways to meet the specific needs of each installation and environment. Resinwerks offers several primer options—including water-based, 100% solids epoxy, BioCem™ SL, and Vapor Barrier Epoxy—to ensure optimal adhesion and moisture protection across a wide range of substrates and conditions.

Following primer and the Rapid H2O EP and broadcast, the system is grouted with a refined, 100% solids, water-clear epoxy resin and finished with a high-wear urethane topcoat available in semi-gloss or satin finishes.

About Us

Resinwerks manufactures sustainable industrial coatings that offer superior performance, quality, and value. Supported by a team of veteran resinous flooring professionals, we are committed to delivering the very best products to facility owners and our trusted contractor partners. Our products are manufactured domestically in the USA and conveniently shipped direct to you.

Sustainable Products

Our product line was designed from the ground up to focus on the latest in environmentally conscious resins and additives. In addition, we have largely substituted water for harsh solvents, making our products safer to use and better for our environment. For our clients, this means less hazardous emissions and superior long-term performance.

Product & Specification Support
